Crow Fades Out  
  
GIVEN INDOORSEMENT  
  
Primary Reigns After County  
Committee Backs Mouser  
Recommendation  
  
The opposition to the re-  
appointment of Postmaster  
Crow, which had been  
considered a serious threat  
to the party, was today  
given indoorsement by the  
county executive committee.  
The committee, after a  
long session, decided to  
recommend the reappoint-  
ment of Crow, and the  
primary election will be  
held on March 10.

PRIMO DE RIVERA

LYNN STATION  
STAYS ON MAP

Railway Stop South of Here  
Must Be Continued, State  
Rules  
  
REASONS OUTLINED  
  
Must Serve Public Although  
1929 Receipts Totaled  
Only \$933  
  
Lynn station, a stop on the Penn-  
sylvania railroad five miles south of  
Marion, will not be abandoned.  
The station will be continued as a  
result of a ruling yesterday by the  
state public utilities commission.  
  
Several weeks ago the Pennsylvania  
railroad filed a request with the com-  
mission for permission to abandon the  
station. The commission denied the  
request at the hearing yesterday when  
residents in the vicinity of the station  
raised opposition to the move.  
  
Small Income Reported  
  
Officials of the railroad company  
testified at the hearing that 22 cars  
of freight were moved from the sta-  
tion in 1929 and that the income from  
this business was \$933. The commis-  
sion ruled that a railroad is a com-  
munity carrier and must serve all com-  
munities through which it passes re-  
gardless of whether any particular  
community provided a profitable busi-  
ness for the road.  
  
Among the residents in the vicinity  
of Lynn station who opposed the  
abandonment of the station were  
George Deader, Elmer Lutz, William  
Zeig and Herbert Lichtenberger.  
  
Prosecuting Attorney Alfred Don-  
ahue represented the objecting res-  
idents in the hearing before the utility  
commission.

General De Rivera Tenders  
Resignation to King  
Alfonso  
  
IN OFFICE SINCE 1923  
  
Action Follows Survey Among  
Principal Army Leaders of  
Country  
  
MADRID, Jan. 28.—Gen. Primo De  
Rivera, premier and dictator of  
Spain since 1923, has tendered his  
resignation to King Alfonso. It was  
received here today.  
  
The resignation has been accepted.  
The report indicated that the re-  
signation was made by Premier De  
Rivera among the principal army  
leaders throughout Spain as to  
whether he should remain in office  
and resulted in an unfavorable ver-  
dict.  
  
Primo De Rivera announced some  
months ago that he would shortly  
resign his post and turn over the  
dictatorship to a successor who  
would be able to carry out his domes-  
tic and foreign policies.  
  
At that time, however, he indi-  
cated it would be many months be-  
fore the country would be in a suf-  
ficiently stable state to make his  
resignation possible.  
  
When he first revealed that he was  
considering giving up the office, he  
had seized by means of a sensational  
coup, on Sept. 13 and 14,  
1923, Primo De Rivera declared that  
the strain of his duties had told  
seriously on his health, and that it  
would be impossible for him to con-  
tinue much longer.  
  
It was reported at the time that  
he submitted his resignation to King  
Alfonso, but that the king declined  
to accept it, feeling that no other  
man in Spain was capable of carry-  
ing on the dictatorship.  
  
However, a canvass was made of  
likely candidates, and the name of  
the Duke of Alba, one of the wealth-  
iest and most prominent noblemen  
in Spain, was suggested for the post.  
The duke declined because of the  
pressure of other business.  
  
Nevertheless, De Rivera had de-  
finitely decided to resign at the ear-  
liest opportunity, and it was under-  
stood that King Alfonso had finally  
swung over to the belief that he  
was giving over to the belief that he

June Blossom, society debutante, announced her plans to desert her  
social set of New York, Boston and Palm Beach, and devote most of her  
time in effort to reach starring heights on the musical comedy stage. She  
will spend the summer in Europe, and in the fall will join the company  
of an operetta, which ran in Paris last year, and which may be produced  
in New York.

PRINCESS ILEANA TO  
WED GERMAN COUNT

Date of Forthcoming Marriage Will Be Made Known  
Saturday by Dowager Queen Marie

VIENNA, Jan. 28.—Princess Ileana  
of Romania, long considered one of  
Europe's most beautiful and eligible  
princesses, who not long ago and  
newspapers, who she departed for  
every getting married, today was plan-  
ning her marriage to Count  
Alexander Von Hoesberg, second son  
of the Prince of Hoesberg and member  
of one of Germany's oldest and most  
aristocratic families.  
  
Works of rumors concerning the  
princess's marriage were checked by  
official news from Bucharest and the  
 betrothal had taken place.  
  
The engagement calls to mind the  
match-making attempts during the  
last few years of Princess Ileana's  
mother, the dowager Queen Marie of  
Romania. While Queen Marie's first

Plunges to Earth  
  
Slightly off schedule and plun-  
ged like a lead weight toward the earth  
As it moved the earth in its fatal  
plunge, fire broke out. A terrible ex-  
plosion occurred as the ship struck  
the ground.  
  
The second remains of the dead  
were found in a grim bundle at the  
front of the cabin, killed from the  
impact of the crash.  
  
The dead are:  
Thyle, Landman, Kansas City,  
Mo.  
William Ford, Kansas City, Mo.  
R. M. Ransom, 4300 East 60th st.,  
Chicago, St. Louis manager of Rob-  
bin & Morris Sales, Inc., Springfield,  
Ohio.  
  
As quickly as the bodies were re-  
moved, an investigation of the crash  
began and the bodies of the dead  
were being taken to the morgue.  
The bodies of the dead were being  
taken to the morgue.  
  
The wreckage of the ship was  
found in a grim bundle at the  
front of the cabin, killed from the  
impact of the crash.  
  
The dead are:  
Thyle, Landman, Kansas City,  
Mo.  
William Ford, Kansas City, Mo.  
R. M. Ransom, 4300 East 60th st.,

bin & Morris Sales, Inc., Springfield,  
Ohio.

Lowered \$153,665 in Last  
Year, Sinking Fund Re-  
port Shows  
  
\$1,630,706 ON JAN. 1  
  
\$1,264,474 Represents Debt  
of Entire City, Rest Is  
Special Assessment  
  
At the beginning of 1929, the bonded  
debt of the city of Marion amounted  
to \$1,380,765.00 following a reduction  
of \$153,665.00 in 1929, according to  
an annual report compiled by E. Paul  
Hagman, secretary of the board of  
financing and trustees.  
  
Of the total bonded debt, \$1,244,  
474.55 is the general debt of the entire  
city, the remaining \$386,290.45 being  
the amount due to assessments from  
owners of property along street im-  
provements. The latter amount is paid  
in semi-annual installments by prop-  
erty owners and the city is not liable  
for any of this debt unless officials  
are unable to collect the assessments.  
  
Light in Detail  
  
Following are the items of the gen-  
eral debt of the entire city and the  
amounts outstanding on Jan. 1, 1930:  
City's portion of street, sewer and  
sidewalk expenses, \$102,271.50; parks,  
\$72,000; hospital, \$129,000; sewage  
disposal, \$705,000; fire department,  
\$25,800; police department, \$14,575.00;  
debt, \$151,000; real estate, \$2,  
709; refunding special assessment  
bonds, \$35,000; public service im-  
provement, \$12,550; airport, \$12,550.  
  
In the item under "debt," it  
appears that \$181,000 remains of the  
debt incurred during the period four  
or five years that the city lived be-  
hind its means, and lived bonds for  
the operating expenses which were not  
met by taxation.  
  
During 1929, \$21,000 was paid of  
this debt, which amounted to \$205,000  
at the first of 1929.

COLOMBUS, Jan. 28.—Three men  
were instantly killed and thousands of  
dollars of damage was done by an ex-  
plosion which wrecked a New York  
Central freight train at Arnold, 18  
miles north of here, at noon today.  
  
The dead:  
Roy Hayler, engineer; William H.  
Berry, fireman; J. A. Deenison,  
brakeman.  
  
The explosion occurred in the boiler  
of the locomotive of the train, but  
its cause was unknown to officials,  
who are investigating the tragedy.  
  
Train Hauling Cost  
  
According to officials from the ac-  
cidents of the company here, the train  
was hauling a load of coal to Toledo,  
and was traveling about 25 miles an  
hour, when the explosion happened.  
  
Telegraph poles, trees and build-  
ings along the tracks were completely  
wrecked, disrupting all communica-  
tion temporarily. Officials of the tragedy  
did not reach Arnold here for nearly  
an hour later, due to the fallen wires.  
The bodies were burned beyond recog-  
nition and were identified only  
through records of the company.  
  
The state utilities commission this  
afternoon sent Inspector Harry  
Davis to the scene of the accident  
to conduct an investigation. Plans  
will attempt to find the cause of the  
explosion.  
  
Bodies Mangled  
  
The bodies were horribly mangled  
and torn. Berry's body was found by  
a field about 50 yards from the en-  
gine. Deenison's legs were cut off,  
and his entire body was ripped and  
broken.  
  
The tracks were torn up for nearly  
a half-mile, and the locomotive  
was thrown about 50 yards from the  
remainder of the train.

PARLEY IS FORCED  
INTO OPEN SESSION

Secret Franco-Italian Debate  
Ended on Motion of  
Stimson

BY GEORGE H. HOLMES  
Marion Star Staff Writer  
  
LONDON, Jan. 28.—Apparently  
becoming weary of the interminable  
Franco-Italian debate within the  
corridor of the "Big Five" meetings,  
the American viewpoint was thrust  
suddenly into the picture this morn-  
ing with the result that a plenary  
session of the annual disarmament con-  
ference was called for Thursday, not-  
withstanding the fact that the parley  
as yet has no agenda to work upon.  
  
The plenary session was voted on  
a motion made by Secretary of State  
Henry L. Stimson, chief of the Ameri-  
can delegation.  
  
The practical result of this unusual  
procedure is to force the discussion  
into the open, for it was also decided  
—on American initiative—that the  
press will be admitted to Thursday's  
session.  
  
To Rally Committee  
  
The entire array of newspapermen  
present, numbering about 200, nat-  
urally cannot possibly be crammed into  
Queen Anne's drawing room, where  
the session will be held, but each  
country will have adequate representa-  
tion.  
  
The first task of the Thursday  
meeting will be to ratify the selection  
of the "Big Five" permanent steering  
committee, to hold office during the  
course of the conference. This com-  
mittee will continue the discussions  
regarding a concrete agenda, which  
will be framed as the parley goes  
along.

SEEKS TO BREAK UP  
OHIO RUM SYNDICATE

Federal Department Acting  
on Information by Former  
Runners

CLEVELAND, Jan. 28.—Using in-  
formation supplied by two admitted  
former rum runners as a lever, federal  
authorities today attempted to pry  
the cover of a large alleged rum run-  
ning syndicate which has been oper-  
ating in the waters of Lake Erie.  
  
The information was revealed yester-  
day at the hearing of Daniel F.  
Coughlin of Toledo and Pittsburgh,  
chief of the alleged liquor syndicate,  
before Judge John J. Connelley, who  
identified Coughlin as being one of  
the "rum runners" who helped unload  
the cargo of liquor at Cedar Point last  
fall from a lugger to a truck.  
  
Coughlin, who was arrested a year  
and a half ago, was charged with  
being a member of the "Mansions."  
Larry Davidson of Cleveland, was held  
for the Toledo federal grand jury to-  
day under \$75,000 bond on charges of  
violating the prohibition laws. Court-  
ney disappeared following his arrest.  
Bonds amounting to \$8,500 for the  
two counts against him have been for-  
feited.

Today  
  
BY ARTHUR BRISBANE  
  
PAGE 1, Jan. 28.—Millions  
of dollars pouring down from  
the sky today. At  
least half a dozen stars, of

celestial family, seemed so close  
that you felt that you could  
reach out and take the big dipper by  
the handle. Today the sky is one  
of the most beautiful ever seen.  
  
The stars are so close that you  
can almost reach out and take the  
big dipper by the handle. Today the  
sky is one of the most beautiful ever  
seen.  
  
The stars are so close that you  
can almost reach out and take the  
big dipper by the handle. Today the  
sky is one of the most beautiful ever  
seen.

Millions from the Sky  
Meat and Alcohol  
Idleness and Vice  
To Talk or Not To Talk  
  
PARIS tells women that skirts for  
day wear will hereafter fall at  
least five inches below the knee. That  
is a step in the direction of sanity,  
a heavenly blessing to many women  
whose legs would not get thin no mat-  
ter what they did.  
  
Later, says Paris, all dresses will  
be long, as fashionable dresses are  
now for evening wear. That women  
should give up freedom in walking,  
acquired after centuries of struggle,  
seems incredible. But as the sheep  
before her shears was dumb, so are  
women silent, acquiescent, before the  
fashion dictator.  
  
Charles Chaplin says he will make  
no talk, at least for the present. He  
is making a silent picture that has al-  
ready cost a million, and thinks his  
silence more eloquent than his voice.  
He is going to make a picture that  
will show the glory of God, and the  
armament showeth forth His handi-  
work, silently, not in talkative fashion.  
  
Chaplin said, and may be right.  
"A good talking picture is inferior to  
a good silent picture, while a good silent  
picture is superior to a good stage  
play."

PHOENIX, Ariz., not far from here,  
as western districts is reckoned,  
reports the greatest mining year that  
Arizona has known. In copper alone  
the state produced more than \$200,  
000,000 pounds, 100,000,000 pounds  
more than last year, value \$119,  
200,000.  
  
That interests comparatively few  
Americans, of whom too many know  
of mining only through bad get-rich-  
quick experience. Arizona's climate  
interests everybody and will be worth  
to the state more than metals ever  
were after the mines are exhausted.  
  
Millions, deeply religious, will be  
interested in a ceremony that took  
place elsewhere in Arizona yesterday.  
A statue of "Christ, the King," was  
unveiled in the garden of the Holy  
Family church in Tucson amid  
enthusiastic cries of "Viva Cristo, o  
King."

Estimate Sets Number of  
Needy Persons Aided Here  
at 675  
  
Approximately 675 needy persons  
are better protected against the  
weather today than they have been  
for weeks, as the result of distribu-  
tion of clothes and shoes through  
three Marion welfare agencies Mon-  
day and today.  
  
The clothing which yet remains at  
the offices of the Salvation Army, C.  
M. Tobin, city poor relief commis-  
sioner, and at the Y. M. C. A., where  
the Red Cross is in charge of dis-  
tribution, will not hold out much  
longer, officials reported today. Each  
agency had a waiting line this morn-  
ing, and at noon dozens yet remained  
to secure protection from the winter.  
  
Sixty-eight families, including ap-  
proximately 200 persons, called at  
the office of the city relief commis-  
sioner yesterday, and many more  
were at his door this morning.  
  
Miss Margaret David, secretary of  
the Red Cross, distributed garments  
and shoes at the Y. M. C. A., esti-  
mated that 200 persons benefited by  
the material distributed yesterday  
and this morning. Most of the cloth-  
ing at the Y. M. C. A. has been dis-  
tributed.  
  
Thirty-three families were given  
233 garments and 55 pairs of shoes  
at the Salvation Army headquarters  
yesterday, and more were being dis-  
tributed today. A good supply yet  
remains at the Salvation Army, and  
plans are being made by Esther  
Shackelford to retain this and give  
it only to those most seriously in  
need.  
  
Miner Escapes After Being  
Buried by Slate and Stone  
POMEROY, Jan. 28.—Harry  
France, a miner in the Blackstone  
coal mine at Rutland, a few miles  
north of here, narrowly escaped death  
today when he was covered by slate  
and stone as a part of the mine col-  
lapsed.  
  
The falling stone and slate miracu-  
lously fell in such a way that the  
miner suffered only cuts and bruises.  
His calls for help summoned renew-  
workmen, who rescued him a short  
time later.  
  
Dudley Field Malone To  
Marry Brooklyn Girl  
  
LONDON, Jan. 28.—Dudley Field  
Malone, noted American divorce law-  
yer, today filed notice of his intended  
marriage to Miss Edna Louise John-  
son of Brooklyn, New York.  
  
This will be Malone's third mar-  
riage. He was recently divorced from  
Doris Stevens, of Maho, Neb., dis-  
tinguished economist and feminist  
leader.  
  
Miss Johnson, according to the no-  
tice, is 24 years of age. She was born  
in Minnesota.

TRAGEDY DISCLOSES  
SECRET MARRIAGE  
  
C. G. Smithson, Killed in Auto  
Crash, Wed 6 Months Ago,  
Bride Reveals  
  
Announcement was made today by  
"Margaret Tribune," secretary in the  
Union county prosecutor's office at  
Marysville, that C. G. Smithson, of  
Springfield, who was killed in an  
automobile accident Sunday, was her  
husband.  
  
Mr. Smithson, a former Marion  
man, and his two companions were in-  
stantly killed when their auto was hit  
by a Baltimore & Ohio train Sunday  
afternoon at Revereville.  
  
Relatives of the dead man knew of  
the secret marriage, which Mrs.  
Smithson said took place in Kentucky  
about six months ago.  
  
She was at the home of her mother-  
in-law at Edison, recovering from an  
illness, when she was notified of the  
tragedy.  
  
Princess Ileana is 21 years of age.  
The count is 25. He was born in Lon-  
don. Their marriage will reduce the  
number of unmarried royal princesses  
in Europe from eight to seven.  
  
The date of the forthcoming mar-  
riage is expected to be made known  
this Saturday, when official announce-  
ment of the betrothal is expected to  
be made by Queen Marie.

2 Fliers Killed  
in Plunge of Plane  
  
ROCHESTER, N. Y., Jan. 28.—  
Authorities today began an in-  
vestigation of the crash of a plane  
here late yesterday which brought  
death to Gordon Smith, student  
pilot, and Jack Lusk, Boston ex-  
plorer. The plane suddenly went into  
a nose dive and fell to earth.  
  
Only a few scattered reminders re-  
maining as evidence of a death toll,  
a woman's coat, a magazine, a box of  
candy, and a broken package of  
cigarettes were scattered around where  
they had fallen from the ceiling of  
the four men and the young woman  
who met death.  
  
Wayne county officials began an  
investigation today into the removal  
of evidence of the crash.  
  
The destruction and removal of the  
wreckage was done in defiance of in-  
structions from Mr. Ron F. Coffin,  
Wayne county coroner, the coroner  
officially informed International News  
Service today.

BOOST IN TELEPHONE  
RATES IS REQUESTED  
  
LaRue Company Applies for  
Permission To Issue  
Promissory Notes  
  
COLUMBUS, Jan. 28.—The La-  
Rue Telephone Co. it was announced  
today, applied to the state utility  
commission for permission to in-  
crease rates and to issue \$25,000 in  
6 per cent promissory notes.  
  
The proposed rate increases are:  
Individual business phone (mag-  
netic) to \$1 from \$3.50 per month.  
Individual residence (magnetic)  
to \$2.50 from \$2.  
Four-party (magnetic) to \$2 from  
\$1.50.  
  
It is planned to have the promissory  
notes mature at the rate of \$1,500  
each six months, beginning Dec. 31,  
next. Proceeds are to be used in  
paying off an indebtedness of \$75,  
000 and to provide for the rehabili-  
tation of the company's plant which  
collapsed during a recent sleet storm.  
  
The company informed the commis-  
sion that, until the commission ap-  
proves the plan, telephone service in  
the community served by this com-  
pany will be inefficient.

IDENTIFY BANK BANDIT  
  
DAYTON, Jan. 28.—E. L. Boxer,  
alias Foxey, 25, who is being held un-  
der \$25,000 bond in Newport, Ky., on  
a charge of highway robbery, today  
has been identified by two women em-  
ployees, as one of the three bandits who  
held up and robbed the South Park  
Savings bank of \$17,000 here last  
Friday.

THAYER FOUND GUILTY  
  
CANTON, O.—Albert L. Thayer,  
New Castle, Pa., architect,  
was found guilty by a jury of six  
men and six women in common  
pleas court here this afternoon of  
having collected a \$7,500 bribe  
from George P. S. Melbourne,  
general contractor in connection  
with the construction of the new  
million-dollar Molly Stark tubercu-  
losis sanitarium.  
  
Fleming Appeal Taken Up  
by Ohio Supreme Court  
  
COLUMBUS, Jan. 28.—After hear-  
ing oral argument, the Ohio  
supreme court today took under ad-  
visement the appeal of former City  
Councilman Thomas W. Fleming,  
of Cleveland, for a reversal of the  
decree of the Cuyahoga county  
courts which adjudged him guilty of  
accepting a \$200 bribe from Walter  
Oehme, former city policeman, also of  
Cleveland.  
  
Fleming was sentenced by the trial  
court to serve two years and nine  
months in Ohio penitentiary. He has  
been out on bond, pending decision  
by the supreme court. Accompanied  
by his wife, Fleming attended today's  
hearing.

STORMS RAGING  
  
Take Heavy Toll in Men and Ships  
on Spanish, Portuguese Coasts  
  
MADRID, Jan. 28.—Storms raging  
along the Spanish and Portuguese  
coasts are taking a heavy toll in men  
and ships, of falling fleets, according  
to dispatches received here today.  
  
Eleven were drowned when the fish-  
ing smack Carmen, founded near  
Vigo, dispatched from that city  
started.  
  
Grave fears were also held for the  
safety of 11 men aboard the Celis,  
another fishing smack which has been  
missing for several days.  
  
The storms were reported to be con-  
tinuing violently. The harbor of Vigo  
is filled with vessels which sought its  
shelter and are now unable to leave.

OFFICERS REELECTED  
FOR HOTEL HARDING  
  
Business Satisfactory in  
1929. Report at Annual  
Meeting Shows  
  
All officers and directors of the New  
Hotel Co. were reelected yesterday at  
annual meetings of the stockholders  
and the board of directors.  
  
A vote of appreciation for the man-  
ner in which the business of Hotel  
Harding had been conducted during  
the last year was given the officers  
and directors at the meeting of the  
stockholders. Business during the  
last year was considered very satis-  
factory. It was stated today.  
  
The officers reelected yesterday are:  
C. E. King, president; Frank A.  
Huber, vice president; C. D. Mitten-  
buler, secretary and manager, and  
Ray R. King, treasurer.  
  
The directors reelected are C. D.  
King, Ray R. King, Mildred Hunt,  
George Frank, John Caulfield, C. D.  
Mittenbuler, Frank A. Huber, and  
H. H. Kiser.

THREE KILLED WHEN  
GAS MAIN EXPLODES  
  
Two Are Cremated as Blaze  
Prevents Rescue from  
Home  
  
CARBONDALE, Pa., Jan. 28.—  
Three persons were killed instantly  
here today, two of the bodies being  
cremated in a raging fire that fol-  
lowed a terrific gas explosion in this  
little mining town.  
  
The dead: Miss Ella Clark, 50-  
year-old deaf mute, and Mr. and Mrs.  
Owen Mangum, 64, all occupants of  
a two story frame structure in Scott  
st. here.  
  
The blast, believed due to leaking  
gas from a broken street main, parti-  
ally wrecked the home, killing all  
of the residents instantly.  
  
The mangled body of the middle-aged  
spinster was recovered from her sec-  
ond-floor apartment soon after the  
explosion, but rescue workers who  
sought to drag out the bodies of the  
elderly couple were driven back by  
the intense heat.

ARCHITECT CLAIMED  
  
CLEVELAND, Jan. 28.—Charles  
Morris, nationally known architect  
and chief designer of the treasury  
building in Washington, is dead here  
today following a two months' illness  
from influenza. Funeral services for  
the architect will be held tomorrow  
with burial in Knollwood cemetery.

# GRUBMIER DEFEATED BY GLENN WADE

## FAVORITE HOLD OF IOWA SNAKE GIVES OPPONENT VICTORY

Tetsura Hygami Wins Over Dan Copen in 13 Minutes with Headlock

By a sudden twist of fate, a man's favorite implement of torture, the blue snake, gave him a momentary victory over his opponent, Tetsura Hygami, in a wrestling match at the Steam Plant gym last night.

Freddie Grubmier, the Iowa snake, today is the victim of such an experience. One of his own pet tricks, a mighty snake hold, had the undesired result of losing a wrestling match at the Steam Plant gym last night.

Going into the last session of their bout, Grubmier and Glenn Wade were even up in the matter of falls. Wade took the first one and the Iowa came back to grab off the second.

The two grapple hard for the last fall. Wade was working Grubmier's style of wrestling keeping away from those long lanky legs that carried the greater power of a box constrictor.

Finally Grubmier got a break. A body seizure was applied suddenly and it seemed all but over. But fate was yet to be reckoned with. Wade got out his foot carrying Grubmier high into the air. Then he fell back, and it was over. Grubmier hit the canvas with terrific force and was momentarily stunned. That moment was enough for his shoulders, which were flat on the mat.

Grubmier's seconds served him in the last fall. Wade was working him in the second fall when he pinned Wade in 12 minutes with a figure four around the body. The final fall went to Wade in 20 minutes.

A series of flying wristlocks eliminated by a double wristlock gave Wade the first fall in 26 minutes. During the entire first round on the mat, Wade carefully avoided Grubmier's sensors. He never gave the Iowa a chance to use his favorite hold.

Wade's efforts to apply a few selector holds of his own were unsuccessful. Grubmier simply couldn't be held and his snake-like actions made it easy to slip free.

In the semi-final, Tetsura Hygami outclassed Dan Copen of Columbus, winning in 14 minutes with a headlock. The Jap took a lot of punishment from flying headlocks before winning the match.

Dick Griffin of Marion pinned the Greenwald of LaPorte in 8:30 with a body seizure. They appeared in the preliminary bill.

COPPER SHORTS ARE HIT BY EARLY JUMP

Short Advances Result Over Stubborn Resistance of Shorts

SITUATION UNCHANGED

But Unsettled by Failure To Reach Agreement Yesterday

BY W. S. COUSINS

NEW YORK, Jan. 28.—The stock market today was unsettled by the failure of the copper shorts to reach an agreement with the long side of the market, having a change of all the "bulls" to "bears."

The copper shorts, who had been successful in driving the price of the metal down to a low level, were today forced to back into the market, and the price of the metal rose sharply.

The market was unsettled by the failure of the copper shorts to reach an agreement with the long side of the market, having a change of all the "bulls" to "bears."

## G. O. P. MEET HAS HARMONY OUTCOME

Threatened Opposition to Reappointment of Postmaster Crow Fades Out

Continued from Page One.

The letter, especially the paragraph advising them to disregard news items regarding the recommendation made to President Hoover. Their speculations, however, were cut short as the meeting was only a few hours away.

By the time the meeting opened, however, any opposition that might have existed earlier in the day had faded away. There was nothing but party harmony in evidence last night when the committee voted on Postmaster Crow's reappointment.

It was reliably, although unofficially, reported before the meeting opened last night that differences had been settled at a series of conferences yesterday afternoon.

After the endorsement had been voted, but before the meeting adjourned, Crow entered the committee room. He was given an enthusiastic ovation after a few remarks in which he thanked the committee for its support.

Previous disturbances

The other incident, regarding a postoffice appointment threatened to result in a controversy in local Republican circles came last June. The incident related to the appointment of a postal official for Calcutta.

Congressman Mower was asked last night of the action of the executive committee. Crow's appointment is expected to be sent the senate by President Hoover within the next few days.

When Crow starts his new term it will be, his third as head of the local postoffice. He has already served eight years under Presidents Warren G. Harding and Calvin Coolidge. He entered the postoffice as a personal appointee of President Harding.

## FILE SUITS

Marion County Residents Are Plaintiffs in Court Cases

MT. GILEAD, Jan. 28 — Suit for divorce has been filed in the common pleas court of Judge W. L. Vaughan by James K. Abraham. His claims that his wife, Celeste Abraham, deserted him in 1921, going to California. He has received no word from her since. They were married in Springfield and have no children.

In the case of the Marcano Banking Co. against the Rush Hardware Co., of Marcano, Asher G. Martin, Florence Morgan and J. W. Mower were appointed appraisers.

In his suit against Albert H. McCarty, George Hart has filed an amended petition. Hart seeks recovery for damages resulting from an automobile collision with McCarty.

Two cases, B. H. Fulk against A. R. Fuller and Marvin Bros. against the Florence Pottery Co., were dismissed by the court. The latter action sought recovery of money allegedly due for plumbing materials and labor.

## Arthur Brisbane's Today

Continued from Page 1

Ref. A special message from the pope was read to the multitude, another from Archbishop Daeger of Santa Fe.

The Catholic religion, complaining bitterly of persecution in Mexico, is preparing on this side of the border, separation of church and state is good for church and state.

OREGON forbids use of hard tires on public highways. No automobile, truck, trailer or semi-trailer weighing more than 1,500 pounds may use Oregon roads unless fully equipped with pneumatic tires. If that highway preserving idea should spread to other states it would mean a difference to tire makers.

Perhaps some one will find a cheap substitute for rubber in heavy duty tires. And cement or other hard roads will be made to endure any sort of wear, safely.

The best news for civilization today travels from Asia, across Europe, over the Atlantic and across the continent, coming from Kemal's headquarters at Angora. For the first time in history, Turkish children are to be protected from exploitation through child labor.

Protection, at first, will be limited to children employed in mines, and at other hard labor. But the start is made. The Turkish republic, you will notice, acts more promptly than this republic. Child labor prevailed here for 100 years after 1740, and many states, even now, might learn from Kemal Pasha.

A man doesn't necessarily feel girlish when he makes his maiden speech.

## COASTING FATAL

COLUMBUS, Jan. 28 — Three coasting accidents today had claimed the life of one boy and had caused the serious injury of two others. James Cain, 15-year-old negro, sustained fatal injuries when his sled was struck by an automobile which was driven by Thomas Kerrigan, 17, late yesterday. The boy suffered fractured ribs, a dislocated neck and internal injuries. He died an hour later in White Cross hospital.

# Sewer and Paving Plans Outlined by Mayor Jones

Start on 1930 Paving Program and 5-Year  
Schedule for Remedying Sewer System's Defects  
Proposed in Communication to City Council

The city's sewer communication to council, outlining a five-year corrective program and the resulting condition were explained in detail to council by F. G. Brown, superintendent of the sewer department, last night.

Mayor Jones said in his communication to council: "Details of the cross-connected sanitary and storm water sewer system and the resulting condition were explained in detail to council by F. G. Brown, superintendent of the sewer department, last night."

Also at this time, I am going to ask council to take immediate action and start proper legislation for want street paving work they are supposed to do for 1930. There are at least three good reasons for immediate action: first, that all work be completed before bad weather sets in next fall; second, in order that assessments may be collected to the county auditor on or before Sept. 1 so that he may collect first half tax in December, 1930, thereby saving one year's interest; third, that the employment situation may be partially relieved."

Councilman John Schneider, chairman of the street and alley committee, replied that a meeting of the committee will be held before the next council meeting and a report on pending street work will probably be prepared for the next session of council.

## 710,000 NEW Users in 1929

The increase in SALADA sales in 1929 over 1928 shows that there were seven hundred and ten thousand (710,000) new users of SALADA TEA last year

# "SALADA" TEA

"Fresh from the Gardens"

528

made by the council committee. Mayor Jones said in his communication to council: "Details of the cross-connected sanitary and storm water sewer system and the resulting condition were explained in detail to council by F. G. Brown, superintendent of the sewer department, last night."

Also at this time, I am going to ask council to take immediate action and start proper legislation for want street paving work they are supposed to do for 1930. Councilman John Schneider, chairman of the street and alley committee, replied that a meeting of the committee will be held before the next council meeting and a report on pending street work will probably be prepared for the next session of council.

## FILE REMONSTRANCE

Silver St. Property Owners object to Paving Proposal

In reply to a petition of 10 owners of property abutting on Silver st., in which they asked for the resurfacing of that street from the Hocking Valley railroad tracks west. 10 other property owners along the street last night filed a remonstrance with city council against such action.

The remonstrance points out that slight repair work will put the street in fair condition, and that other streets in the neighborhood need attention worse than this section.

## CAST WELL CHOSEN FOR MIMES' SHOW

Experienced Players Included  
in List for Production  
This Week

The Marion Mimes cast for "The House of a Thousand Thrills" to be presented at 8:15 o'clock Thursday night in Central Junior High school auditorium, includes five members who have prepared in past productions.

A. J. Hawker, in the role of the butler for the forthcoming play, was cast in the role of an unscrupulous husband in "The Weak Spot." Miss Helen Siffert, who plays a daughter in the latest production of the Mimes, appeared in the role of a wife in an "external triangle" play, "One of Those Things."

Mrs. Frances Hume appeared in "Evening Dress Indispensable," given at the garden party last fall. In addition to appearing in the two plays, Mrs. Hume has directed several of the plays presented by the Mimes. In "The House of a Thousand Thrills," Mrs. Hume will appear as a grand-mother of immense wealth.

James Shipley, in the role of Mona Carlton's cousin, appeared with the Mimes in "Evening Dress Indispensable."

Miss Arline Hoeny, who had a part in "Gretna Green," a fantasy given several months ago, is a demure English secretary in the play to be given Thursday night.

A play of comedy and entertainment, "Thursday Night," had Miss Betty Crissinger in the role of a young wife. In "The House of a Thousand Thrills," she appears as "Mona Carlton," a wealthy young girl with brains in addition to her money.

Other members of the cast are Mrs. Florence Horst, Frank M. Barnhill,

Miss Louise Neal, Virginia Fox and Dale Yambert.

Saturday night the cast and its guests had a midnight lunch at the close of rehearsal in the Mimes rooms, 110 1/2 South Main st.

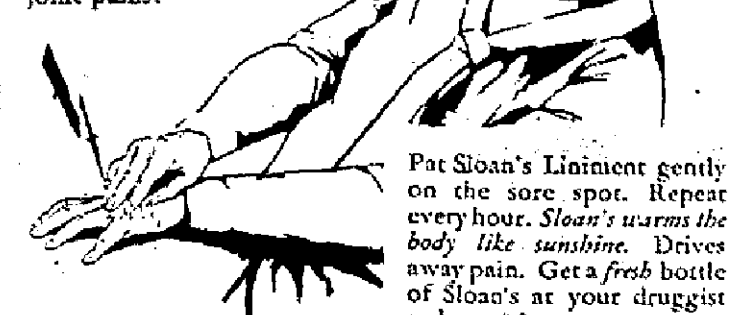

## RECEPTION PLANNED FOR SCHOOL PUPILS

Presidential Anniversary Observance on Program at Harding Home

As an observance of the "presidential birthday anniversary period," extending from Jan. 20 to Feb. 28,

## On cold damp days warms like sunshine

Do old pains hurt worse in chilly weather? Are joints stiff and sore on damp days? Here is a tested way to ease those muscle and joint pains:—

Pat Sloan's Liniment gently on the sore spot. Repeat every hour. Sloan's warms the body like sunshine. Drives away pain. Get a fresh bottle of Sloan's at your druggist today—35c.

# SLOAN'S LINIMENT

any time on Saturdays and Sundays. A special price of 10 cents has been set for school pupils during the anniversary period.

## That COLD

Colds come suddenly. You can often end them just as quickly! Take Bayer Aspirin the moment you've caught one. A single sneeze should be the signal, or the first sign of congestion or headache, or soreness. Exposure to cold and wet isn't half so serious when you've learned to protect yourself with Bayer Aspirin. For the speedy relief of colds, headaches, neuralgic or neuritic pain, and even the acute suffering caused by rheumatism, there is nothing so sure and so safe as genuine Aspirin tablets stamped Bayer. They make a marvelous gargle, too. See proven directions in every package.

# BAYER ASPIRIN

Aspirin is the trade mark of Bayer Manufacture of Monacopoland, Germany

THE FRANK BROS. CO.

## Half Price and Less on Any Cloth, Velvet or Broadtail

# C-O-A-T \$59<sup>50</sup>

Formerly \$125.00 to \$175.00. We mean it. . . . \$59.50 will buy absolute choice of the house, including all those magnificent one-of-a-kind creations, adorned with luxurious furs that sold at \$125.00, \$150.00 and even \$175.00, all to be rushed out at \$59.50.

Group Coats Sold to \$35.00 <b>\$16<sup>95</sup></b>	Group Coats Sold to \$49.50 <b>\$25<sup>00</sup></b>

# CLARA BOW explains what makes a Girl ALLURING . .

"THERE'S ONE THING that stands out above all others in making a girl really alluring," says Clara Bow, whose vivid beauty and personality have won her world-fame in motion pictures. It's lovely skin.

"You may have marvelously appealing eyes—and a lot of charm—and a beautiful figure.

"But just notice the way people cluster around a girl who has lovely skin! And any girl can have lovely skin if she takes good care of it!

"I got my first chance in the movies, partly, at least, because of what my father calls my 'baby-smooth' skin

"You see, motion picture directors found out long ago that unless a girl has marvelous skin she can never make millions of hearts beat faster when she appears in a close-up. The incandescent lights reveal the tiniest flaw in the skin!

"That's why we motion picture actresses have to keep our skin at its very best every minute.

"Several years ago some of us began using Lux Toilet Soap, and were enthusiastic about it."

"So other screen stars began to use it—until it wasn't long before almost every important actress in Hollywood was using it. Janet Gaynor—Joan Crawford—Billie Dove—Bebe Daniels—Dorothy Mackall.

"Take Nancy Carroll, for instance, one of Paramount's most fascinating girls. She keeps her fair skin delectable as an apple blossom with Lux Toilet Soap.

"And Mary Brian, too. Her skin is clear and smooth as a little girl's. Jean Arthur, too, keeps her skin lovely with Lux Toilet Soap.

"In fact," Clara Bow goes on to say, "nearly every girl I know in Hollywood uses this soap. And aren't we glad that we have kept our skin in good condition—the talkies have

even more close-ups than the silent pictures have!

"When I get letters from girls all over the country—so many of them saying nice things about my skin—I long to answer every one of them and tell these girls that they can keep their skin just as beautifully smooth as we screen stars do—by using Lux Toilet Soap."

JOAN CRAWFORD faces the close-up without fear

9 out of 10  
Screen Stars use it

There are now 521 important actresses in Hollywood, including all stars. Of these, 511 use Lux Toilet Soap, both at home and in their studio dressing rooms. Indeed, as a result of their enthusiasm this fragrant white soap has been made official in all the great film studios in Hollywood.

If you aren't one of the millions of girls and women who are using this fine soap, made by just the same method as are the finest soaps of France, do try it. You will be delighted with its quick generous lather—even in the hardest water. And with the way it keeps your skin always charmingly fresh and smooth. Order several cakes—today.

MARY BRIAN

Clara Bow, scintillating Paramount star, in the luxurious bathroom designed especially for her in Hollywood. There—as in her dressing room on location—she uses Lux Toilet Soap. She says: "Just notice the way people cluster around a girl who has lovely skin! . . . And beautifully smooth skin means even more to a screen star than to other women. Lux Toilet Soap is such a help in keeping the skin in perfect condition!"

Clara Bow  
First Sweeping Hollywood—then Broadway  
—and now the European Capitals . . .

## Aid of Industries Sought To Fill Vacant Dwellings

Empty House Problem Here Would Be at Least Partially Solved Should Employes Now Living Outside City Move to Marion, Local Realtors Believe

Cooperation of local manufacturing plant heads has been asked by Marion real estate dealers, the majority of whom are also builders, in an effort to reduce the number of vacant houses in the city.

The builders claim that they responded to the call of the manufacturers during the war to build on a widespread scale to provide dwellings for the increased number of workers.

Now, finding themselves with many vacant houses on their hands, the builders are asking the cooperation of

the manufacturers in filling these houses.

It is estimated that more than 200 persons who live in towns and villages surrounding Marion are employed in the city. These persons, it is said, are employed in factories, stores, offices and other business houses. If they can be induced to take up their residence in Marion the empty house problem will be greatly improved, the builders and real estate dealers declare.

Discussed at Conference

The problem was discussed at a

recent conference between the builders and industrial plant heads. At the conference the real estate dealers asked the cooperation of the manufacturers in inducing these persons to move here.

Marion residents should be given the preference in positions in factories, in the opinion of the builders. A recent survey made by the Marion real estate board shows that there are approximately 200 vacant houses in the city. This number included only houses that are tenable, with modern and semi-modern.

The real estate board's survey shows that the number of vacant houses has increased over last year.

Results Expected

With Marion residents being given the preference in jobs in Marion factories, members of the real estate board believe that a large number of persons now employed here, but living out of the city, will take up their residence in Marion. This, however, is not the only advantage to be derived from living in the city where employment is offered, the board members point out.

Because there are many vacant houses in the city rents have reached a new low level, the dealers say. Strictly modern houses can be rented for \$20 a month, it is said.

### DIES IN MONTANA

H. M. Gompf, Former Marion Resident, Passes Away

Relatives here have learned of the death of Harry M. Gompf, 60, a former resident of the city, Sunday night at his home in Libby, Mont. Death came after a short illness.

Mr. Gompf was the son of George and Julia Gompf, former residents of Richmond township and Marion. The parents are dead. He is survived by his wife, the former Della Bradford, of east of Marion, three sons, a daughter, and the following brothers and sisters: Mrs. Charles L. Almon, of Prospect, Dennis Gompf, of Waples, Oscar Gompf, of Libby, Mont., Wesley Gompf, of Findlay, William Gompf, of Lansing, Mich., Nevil Gompf, of Norton, and Francis Gompf, of Columbus.

Mr. Gompf was owner of Lincoln county, Mont., for several years. He had also conducted an undertaking establishment. When he was in Marion he was employed at the McClain Furniture Co., Anthony's Laundry and the Lindsay-Lawrence Lumber Co.

Funeral arrangements have not been made.

Let Storage Help You

If undecided about your future housekeeping plans consult us in regard to storage.

Endrick Transfer & Storage Co.—Adv.

### SEEKS AUTO OWNER

Deputy Sheriff Fred Williams is attempting to trace the owner of an automobile which was wrecked a mile west of Meeker yesterday. The car bore a last year's license number which was issued in Kenton. Three wheels were broken from the machine when it went into a ditch on the Harding Highway. The machine was taken to Hubert's garage at Meeker.

### Patrick Bingham Kites

Arranged for Thursday

Funeral services for Patrick Bingham, son of Mrs. Barbara Bingham, 287 Olney ave., will be held Thursday morning at 9 o'clock at St. Mary's Catholic church, with the Rev. William J. Spickard, pastor officiating.

Mr. Bingham died enroute to Lakeside hospital, Saturday afternoon. He was found in a dazed condition on a Cleveland street. An ambulance was called and he was taken to the hospital. He was dead before he was taken from the ambulance. Heart failure was given as the cause of death.

The body was removed from the St. Mary's funeral home this afternoon to the home of his mother, relatives of Mr. Bingham have requested that flowers be omitted.

## THE MARION STAR

THE MARION PUBLISHING CO.  
Owner and publisher of The Marion Star and  
Morning Tribune commenced September 24, 1920,  
under the name of The Marion Star.

Founded 1877. Reestablished 1914.

Entered at the Postoffice at Marion, Ohio, as  
second-class matter.

ISSUED EVERY AFTERNOON, EXCEPT  
SUNDAY.

Marion Star Building, 153-155 N. State St.

Single Copy 5 cents  
Delivered by Carrier 10 cents  
By mail, to Marion, adjoining counties, year 10.00  
Beyond Marion and surrounding counties 12.00

Persons desiring the DAILY STAR delivered to  
their homes can secure it by postal card request,  
or by ordering through telephone 2314. Prompt  
complaints of irregular service is requested.

STAR TELEPHONE  
Call 2314 and ask The Star switchboard operator  
for the department you want.

TUESDAY, JANUARY 28, 1920.

Star subscribers will greatly appreciate  
good delivery service by making all com-  
plaints to the business office, not to  
carriers. Phone 2314.

Daily Proverb—"He that hath a good  
harvest may be content with some thistles."

Reports from Estonia are to the effect  
that Russia has broken her pledge to buy  
Estonian goods. The Estonians should  
congratulate themselves. They are not out  
of their goods.

It has been disclosed that a lot of bull  
heads sharks have been seen in New York  
City without having any real estate on which  
to qualify as bondsmen. Main Street seldom  
plays a joke on itself like that.

A young Atlanta girl was shot to death  
and her escort wounded, when they attempted  
to stage a bogus hold-up as a practical joke.  
The practical joke often turns out to be un-  
like a gun in her respect; it's loaded at  
both ends.

The department of agriculture, fearing  
overproduction, advises farmers to adjust ex-  
penditures carefully in order to maintain  
farm incomes during the year. How quaint!  
Just as though it might be expected that  
Americans in this day and age think of  
incomes in connection with expenditures!

The trouble with the papers from Stoke  
Newington, England, now held in Toronto, which  
are said to show that Thomas Jefferson did  
not write the Declaration of Independence,  
is that, to credit them, we have to discredit  
the written statements of John Adams, Ben-  
jamin Franklin and Jefferson himself.

The New York communists so greatly  
worked up over the death of one of their  
number shot by a policeman no doubt figure  
that it was the duty of the policeman in ques-  
tion to remain passive while the rioters beat  
him up.

The board of freeholders of Warren county,  
New Jersey, has adopted a resolution re-  
quiring the removal of all billboards and  
advertising signs from the roadsides of the  
county. The idea is so good that it should  
be emulated by every county in the country.

The archaeologists of the Field Museum-  
Oxford expedition in Mesopotamia state that  
they have found inscriptions in excavations  
on the site of the city of Kish which, they  
claim, will tell the exact time off the  
flood! Tish, tush! What a lot of people  
want to know is how old Noah deflated pairs  
of all the life on the earth sufficiently to  
pack them and the provender for them away  
in a vessel the size of the Ark and yet was  
able to send them down the gangplank when  
the flood subsided in fairly normal shape.

## Wealth for All Purposes Save Debt.

Closely following publication of the fact  
that France now has the world's largest store  
of gold came what was tantamount to an  
announcement that she must have a navy  
which would cause her to rank as a second-  
class sea power, and now we learn that she  
is employing a mighty force of men to  
fortify her eastern frontier from the Medi-  
terranean to the North sea.

Without going into the military phase of  
her course in strengthening her frontier de-  
fenses in line with the lessons taught by the  
German and Austrian assaults on her fortifica-  
tions during the World war, without con-  
sidering her course in carrying on such opera-  
tions in immediate advance of and during a  
conference to which she is a party, a coun-  
terforce supposed to be looking to the  
lightening of the tax burden due to expendi-  
ture for armament purposes, the financial  
aspect of the thing forces attention.

If reports are to be credited, the French  
program calls for a defense system approxi-  
mately ten miles in width over the entire 500  
miles of her eastern frontier, a work which it  
is estimated will require the labor of 500,000  
men over a period of two years. Even though  
French goldistry, the pay of which is pitifully  
small, be employed on the undertaking, the  
expense is bound to be heavy for materials  
alone. Even though the estimated cost,  
which is something over \$15,000,000, isn't  
exceeded, that amount is a very considerable  
sum.

Take this estimated cost and add to it the  
probable cost of building up her navy to what  
France dreams her needs to be and consider  
the two in connection with her possession of  
the largest stock of gold in the world and  
we have a radically different picture of  
France from that her financiers and diplomats  
painted whenever her war debt to us has  
been up for discussion in the past.

Any way one may look at the matter, it  
is hard to escape the suspicion that the  
United States was taken in by the poor mouth  
which France so artistically put on to con-  
vince us of her inability to pay her debt and  
caused us to agree to forgive her the debt in-  
curred by her during the war and accept her  
promise to pay only that part incurred sub-  
sequent to the signing of the armistice.

In a word it's difficult to escape the con-  
clusion that we were done again. And not  
content with this, the internationalists would  
have us forget her even that small portion of  
the debt we ask her to pay.

## Russian Industrial Plan Lags.

When it became manifest, last fall, that  
the Russian grain harvest would not even  
approach expectations of the bolshevik gov-  
ernment, blame fell upon the peasantry's  
lack of enthusiasm and appreciation of what  
would come to it under the "theories of com-  
munistism," and a campaign of coercion and  
what amounted to confiscation was inaugu-  
rated to aid the peasants in seeing the light.

Again the hopes of the soviet government  
have been shattered; this time by the failure  
of its industrial program to produce the ex-  
pected results, but in the present case blame  
can not attach to the peasants, nor, to be  
frank, does the government place it upon  
them. It has been placed squarely upon the  
shop workers, the element which has been  
held to be the backbone of the bolshevik  
strength.

In issuing an appeal for greater discipline  
and devotion to the soviet industrial plan,  
the falling-down in industry for the first  
quarter of the present fiscal year is attributed  
to lack of disciplined management in the  
factories and to "inertia" of large masses  
of workers, who, in many instances have con-  
tinued "in practices of many generations in-  
volving wastage of time, materials and  
machinery."

Admitting that the plan was a decidedly  
ambitious one, in that it proposed to over-  
throw in five years the practices of genera-  
tions and cause an evolution in the country's  
industrial production, there was and is little  
chance of its success under the conditions  
existing in Russia.

While the shop workers there fare far  
better than the other elements of the Rus-  
sian people, it is next to impossible that  
they do not realize that they are producing  
the grapes for the exclusive consumption of  
the inner circle of the favored few. And  
even should the shop workers not be in-  
fluenced in this way, the communistic plan,  
were it really in operation in Russia, would  
stand as a deterrent to industrial productiv-  
ness, just as it has in agricultural productiv-  
ness there. When the peasants found that  
anything they raised was taken from them,  
either taken at a ridiculously low price fixed  
by the government or by confiscation, they  
simply stopped raising more than was neces-  
sary to meet their own needs.

The shop workers have not enjoyed the  
blessings they anticipated—the blessings  
have existed only in promise; they have not  
become actualities. They are beginning to  
appreciate the fact that no matter how hard  
they may labor, the results of their labor,  
even were communism practiced there, would  
in no way advance their individual interests,  
and thus they work in a half-hearted fashion  
which ever marks labor to which an incentive  
is denied. Communism, and socialism, its  
twin, has its allure when opportunity for gain  
through pillage and robbery are offered, but  
after a land has been pillaged of all that is  
worth stealing; after it has been robbed of  
its wealth and that wealth has been expended  
or consumed and production to sustain life  
becomes necessary, then enthusiasm is very  
liable to diminish markedly and production  
is very liable to drop to a point where it  
meets the needs of existence and very little  
more.

Police Commissioner Whelan, of New York  
City, wants \$5,000,000 with which to erect  
a new police station. Can it be that the  
commissioner plans anything so radical as a  
rounding-up of the city's criminal element?

A Beverly Hills doctor has been indicted  
on a charge of selling narcotics to Alvin  
Karpis, but this must not be taken as a  
reflection on the profession generally. There  
are few lines of endeavor free from elements  
which are not above reproach.

The navy delegates are to sup off and  
with the solid gold table utensils of the  
mayor of London this week. Let us hope  
that there will be no disgraceful develop-  
ments similar to those following the ban-  
queting of a distinguished gathering over in  
France or Spain, some years ago, when it  
came time to count the spoons.

Since the reorganization of the Canadian  
rum patrol, six months ago, the liquor run  
into this country from Canada was reduced  
from 3,021,215 gallons to 1,800,000. Why  
wouldn't it be good business on the part of  
Uncle Sam to discharge his forces and pay  
Canada to double her force?

A lot of mean men have been uncovered,  
but the appellation, the meanest man, easily  
goes to the young Chicago manager of a  
chain of shoe stores who, instead of giving  
his blind mother her weekly check for \$12,  
handed her a summons notifying her to ap-  
pear in court to show cause why her \$12  
allowance should not be reduced.

The Association Opposed to Prohibition  
announces that liquor control in Sweden has  
cut arrests for drunkenness and crimes of  
violence in half and reduced the consumption  
of liquor thirty-five per cent. Low enforce-  
ment officers over there must be doing their  
duty rather than playing in with the criminal  
world, as so many of them are over here.

When they started out, the people of  
Washington imagined they were on a  
"panther" hunt, but judging by reports of  
statements of citizens run in the Washington  
papers, they are soon going to find them-  
selves facing a herd of elephants or something  
like that. There is too to be said for rumor,  
it never is guilty of minimizing anything.

Professor Lowell J. Ratzel, of George  
Washington university, says that it is the  
manifest duty of American colleges and  
schools to revise their courses in World war  
history, as modern historians had shifted the  
blame from the shoulders of the ex-kaiser,  
who tried to prevent it, to those of Count  
Berchtold, Austrian foreign minister, and  
that the Serbian government was aware for  
months of the plot to assassinate Archduke  
Francis Ferdinand, of Austria, and if it did  
nothing to encourage it, did nothing to pre-  
vent it. In other words, we have another  
illustration that contemporary history is seldom  
safe.

## SHIFTING "THE NOBLE EXPERIMENT"

## Foot Misery Caused by Neglect.

BY ROYAL S. COPELAND, M. D.

Nothing else hurt more than an aching  
foot. It is a pity so many persons have tender  
feet. If their members were properly cared for  
in infancy and early childhood there would be less  
foot trouble in later life.

Shoes and stockings are important factors in  
promoting foot comfort and health. Little feet go  
running and jumping, skipping and climbing all  
day long. Is it any wonder that they get tired  
and ache at night?

School shoes for children should be well-fitted,  
not too tight, and not too loose. They must be  
just right, or else they are all wrong. There should  
be plenty of room for the toes.

Stockings should be sufficiently long. This is  
necessary so as not to bind the feet and toes. The  
top should not be crowded by the stockings. Quite  
often the trouble may be traced to short stock-  
ings as to short shoes.

Children's shoes should be long enough. It is  
important not to crowd any part of the foot. The  
heels of the shoes should be kept straight, not  
worn over. The posture of the foot is ruined if  
the heels are not flat.

Don't put high heels on a young girl. They  
throw the body out of the correct posture. When  
she is older she will have to decide for herself, but  
in childhood, do your part to start the youngster  
right.

Children often have tired and aching feet at  
night. Much comfort will be given by bathing  
the feet for ten minutes in hot water to which salt  
has been added. Rubbing the feet after is good  
for sleeping. The toes should be cut straight  
across. It is bad to let the corners, next to the  
side of the nail.

Have your child's feet examined once in a while  
by a good chiropodist, or podiatrist. It is just as  
important as to see the dentist.

Correct posture makes for good health. Correct  
shoes help good posture.

Everybody should know that foot exercises are  
useful. They bring foot health. Standing on the  
toes, standing on the edges of the feet—these exer-  
cises help to make the feet strong and capable.

Dr. Copeland will answer for readers of this  
paper, questions on medicine, hygiene and sanitation  
subjects that are of general interest. Where  
the subject of a letter is such that it can not be  
published in this column, Dr. Copeland will, when  
the question is a proper one, write you personally  
in a self-addressed, stamped envelope if enclosed.  
Address all inquiries to Dr. Royal S. Copeland, in  
care of the paper.

## Dinner Stories.

Judge—"What possible excuse did you  
jurymen have for acquitting that murderer?"  
Jury Foreman—"Insanity."

Judge—"What, the whole twelve of you?"

A little girl ran into the house with a  
piece of wire which she had picked up in  
the street, and inquired of her sister what  
it was.

Her sister looked at it blankly for a  
moment.

"I don't know," she said. "Go and ask  
mother."

The mother thought hard for some mo-  
ments but, at last, gave it up.

"Go and ask grandma," she said.

"The little girl did as she was bid. Grand-  
ma told her. It was a hairpin."

"Come, come, my man, you've been look-  
ing around here a long time without buying.  
What do you want?"

"I guess I want another floorwalker—I'm  
the new owner."

Senior—"What is it that lives in a stall,  
eats oats and can see equally well at both  
ends?"

End Man—"By me."

Senior—"A blind horse."

Visitor—"Isn't it difficult to keep your  
household budget straight?"

Mrs. Newcomb—"My dear, it's terrible.  
This month I've had to put in two mistakes  
to make mine balance."

Doctor—"Do you feel this pain often?"

Seaman—"Every two minutes, sir."

Doctor—"Does it last a long time?"

Seaman—"Yes, sir, about a quarter of an  
hour each time."

Dr. Chazang—"Madam, I shall have to  
paint your husband's throat with nitrate of  
silver."

Mrs. Highbrow—"Oh, doctor, use gold—  
the expense is quite immaterial."

## Editorial Opinion.

## BUREAUCRATIC FUTILITY.

The Federal Trade commission has just settled  
a case against the American Association of Ad-  
vertising Agencies and various groups of news-  
papers in the country, including the American  
Newspaper Publishers' association, by deciding  
that it lacked jurisdiction. This action was in-  
stituted in December, 1921, a little more than five  
years ago. It involved protracted hearings in  
five different cities stretching from the Atlantic  
to the Mississippi and entailed a cost of the de-  
fendants of several hundred thousand dollars in  
travel fees and attorneys' fees. It was all to the  
time and effort wasted by the commission in  
itself, it will be seen how great was the expenditure  
by society on the useless proceeding.

It is not our intention here to enter into the  
merits of this case, but merely to cite it as typical  
of the activities of this bureaucratic body. Since  
its establishment in the second Wilson admin-  
istration the Trade commission has been success-  
ful in about one out of every five of the actions  
it has instituted, and in the meantime it has put  
American industry to a burden of expense in  
justifying its methods wholly out of proportion  
to the reforms it has obtained.

Perhaps there should be some authority in  
Washington to pass judgment on business prac-  
tices as it affects commodities in interstate com-  
merce. It is obvious, however, that its powers  
should be so defined that their exercise becomes  
not a nuisance but a help to national industry.  
So far the Federal Trade commission has qual-  
ified principally in the nuisance class. Clothed  
with the prerogatives of policeman, prosecutor and  
judge and belittled by an amazing turnover in  
personnel, it has sought to enforce its existence by  
starting a multiplicity of things it couldn't finish,  
to the unsettlement of trade and the confusion  
of business standards. Not all its members, it  
should be noted, have been happy in pursuing this  
policy. Judge Humphrey, its former chairman  
and still one of its commissioners, strongly dis-  
sented from the majority opinion when the ques-  
tion of its jurisdiction over the case already men-  
tioned first came up in 1926, but he was a voice  
crying in the wilderness. Notwithstanding his  
covert arguments at the time, it forced ahead to  
the debate ended.

Colonel William J. Donovan, former assistant  
attorney general of the United States, has re-  
cently suggested that the Trade commission be  
changed "from a body having the combined powers  
and duties of investigator, prosecutor and judge  
into a body advisory and judicial." In an ad-  
dress before the New York State Bar association he  
urged that "the attorney general alone should  
have the authority to institute proceedings to  
prevent and restrain violations of the Sherman  
law," and that except in criminal cases he should  
bring such proceedings before the Trade com-  
mission. Unfair competition cases, he thought, should  
be instituted before the commission not only by  
the attorney general but by private litigants, and  
should be subject to review either by the circuit  
court of appeals or by a specially-constituted court.

In principle we heartily agree with these recom-  
mendations. Something certainly should be done  
to prevent such irresponsible procedure as that  
described above.—New York Herald Tribune

## ADMIRAL BYRD'S POSITION.

Admiral Richard E. Byrd and his associates of  
the Antarctic expedition are in no peril, as some  
persons may have been led to think because of  
the appeal made on their behalf by the American  
state department to Great Britain and Norway.  
That appeal represents an effort—suggested by  
Byrd himself—to guard against calamity.

The expedition is not suffering from lack of  
food, clothing or proper shelter. It is not living  
on reduced rations and it is faced by no emergency  
which threatens the personal comfort of the mem-  
bers of the expedition. But the ice conditions in  
Ross sea, the admiral reports, are the worst in  
the history of Antarctic exploration, and it is  
possible that he will need the aid of powerful  
whaling ships in getting his vessels out of the ice  
pack before another winter closes down upon these  
remote southern waters.

Even that contingency, according to Stefansson,  
would not necessarily prove a calamity. But  
Admiral Byrd, a leader of foresight, deems it his  
duty to enable his forty-two associates to return  
home now that the expedition has accomplished  
its task. Some of the men are said to be in ill  
health and to require rest and perhaps medical  
care under normal conditions. Prudence, not dif-  
ficulty, has suggested the appeal for aid.—  
Chicago News.

## The Word of God.

Known unto God are all His works from  
the beginning of the world.—Acts 15:18.

Prayer—O Lord, Thou knowest our down-  
setting and our uprisings and even our very  
thoughts. Help us to think Thy thoughts  
with Thee.

## Kanakas of New Guinea.

BY TEMPLE MANNING.

Straw skirts have become inseparably  
identified with the South seas. And they  
are there—but not everywhere.

Recently I told you about Rabaul in New  
Britain, part of New Guinea. Rabaul, now  
under Australian control, has set about to  
reform the dress of the women. Time was,  
not so long ago, when the women everywhere  
in this part of the globe wore the "pulu,"  
or grass skirt. But now the Kanaka  
women, or "Maris," as they are called in  
Rabaul, dressed in unbecomingly calico shirts  
—these short skirts are called laplaps, in-  
stead—and "blary" blouses, which  
cover their velvet brown skin. Strange to  
say, this change in costume seems to have  
effected a change in character, for the women  
who in her native village is an industrious  
worker, becomes lazy and slovenly in the  
white man's town where western clothes are  
required.

But in New Guinea proper, the grass skirt  
is still "au fait," so you see the situation is  
not completely blasted.

As for beauty, it is a rather scarce quan-  
tity among these women.

The play of color is found in the male  
of the species. The "boys"—all of the men  
are "boys"—take great delight in adorning  
themselves. Their hair has a tendency to  
grow straight up and this lends itself to all  
forms of decoration—and color harmonies.  
For above all else, the New Britain boy loves  
to dye his hair. Every color in the spectrum  
will be seen in the hair of the boys as they  
walk along the streets of Rabaul. They  
even go in for two-toned effects. In addition  
to this, the blossoms of the flaming hibiscus  
are often tucked behind the ears or under the  
tight armbands.

Ear decorations are, of course, in high  
favor. When these lads are mere youths the  
ears are pierced and small discs of wood  
inserted. Then, as they grow older, the small  
discs are replaced by larger ones and the  
ears stretched farther and farther until the  
lobes reach down almost to the shoulder-  
blades.

Bicycles are extremely popular in Rabaul,  
particularly among the "boys." It is no un-  
common sight to see them rolling down the  
main street of the city, their brightly col-  
ored topknots blazing like a beacon. Some-  
times they will capture one of the brilliant  
tropical butterflies and with a length of wood  
attach it to their hair.

Rabaul most certainly has color.

## Notes and News of Science.

More than 55,000,000 acres of Canadian  
land is under cultivation.

Electrically operated, a new tool cuts a rock  
mortise in a door in forty seconds.

Rich deposits of iron ore and aluminum  
clay have been discovered in an Iceland moun-  
tain.

To save butchers' time in cutting bones in  
meat a motor driven band saw has been de-  
signed.

Just about two-thirds of the automobiles  
registered in Ceylon are of American manu-  
facture.

The natural motion of grasping the handles  
closes new tools designed for lifting fruit  
jars.

Iron ore deposits on Koolan island, off the  
northwest coast of Australia, are to be  
developed.

The tanks of 4,000 elephants are needed  
each year to meet the world's demand for  
billiard balls.

Vacuum cups are used with a crane in a  
German industrial plant to handle non-mag-  
netic metal plates.

A process has been patented for making  
roof paint and obtaining several by-products  
from plywood wood.

The use of electricity for heating is in-  
creasing rapidly in and around the French  
city of Strasbourg.

## Twenty Years Ago.

It was Friday, January 28,  
Paris was rejoicing over the fact that the  
Seine flood had reached its crest. So high  
was the water that boats were being sailed  
in the Champs Elysees and in the courtyard  
of President Feliere's palace.

Word was received of the election of  
George Whysall as president of the Central  
Electric Railway association.

Friends learned of the marriage of Earle  
C. Johnson, of this city, and Miss Iva Alice  
Smith, of Clarksville, West Virginia, the  
month before.

Three of the Marion blackmailers were  
found guilty and sentenced to prison for  
terms ranging from ten to sixteen years.

Mrs. Caille Andrews was installed as noble  
grand of Wayside Roso Rebekah lodge.

## In Line with the Times.

That's the Question!  
Florida weekly says prohibition is here to stay  
and that something better. And what's  
better?—Florida Times-Union.

Huh! That Wouldn't Alarm!  
Lamentation is the watchword in London, but  
don't be alarmed—they are not going to limit the  
speeches.—Boston Transcript.

Not the Regular Chicago Kind.  
Chicago is experiencing a payroll hold-up which  
does not involve the professional gangsters of the  
underworld.—Washington Star.

With the Majority.  
Mr. Lloyd George says negotiations are all right  
in their place, but, like most of us, he probably  
doesn't like them in conversations.—Toronto Star.

No Accounting for It.  
To those who don't care for drink, it seems  
pure silliness in these times when keep on seeking  
it. And human nature wonderful?—St. Louis  
Globe-Democrat.

George Regular That Way.  
Senator Norris, of Nebraska, has filed again  
for the senate, and as a Republican. Uncle George  
returns to the party once every six years.—Man-  
napolis Journal.

Woods Full of 'Em.  
Automobiles in America killed nearly a hundred  
a day last year, for there are still motorists who  
churn the road to keep the population down.  
—Cincinnati Enquirer.

The Real Stuff.  
After all, the final test of dry law enforcement  
is in the market price, home delivered, of genuine  
premium liquor made last week in some aban-  
doned barn.—Indianapolis News.

A Crime Need.  
It seems strange in the light of the usual wide-  
awakeness of the household appliance manufac-  
turers, that not one of them has thought of putting  
an electric cleaner lighter on the vacuum sweeper.  
Ohio State Journal.

The War in America.  
Agitated citizens who are howling about the  
number of laws enacted annually would have less  
to howl about if every mother's son among them  
was not eternally trying to put over some pet law  
of his own.—Detroit Free Press.

Why Not Elimination?  
The house proposes to cut out the word  
"applause" in reports of speeches. Now if it  
will cut out "applause" the Record can be re-  
duced. What this country demands is reduction,  
not limitation.—Washington Post.

Why Not Bumpers as Well?  
A street cleaner in Milwaukee is equipped  
with shoulder reflectors and a tall light.—Phi-  
ladelphia Post-Gazette.

## New York Day by Day.

BY O. O. MINTYRE.

New York, Jan. 28.—The American  
is shy of prima donnas. The can-  
didatess with personality who can skillfully handle  
notes is assured wealth and fame. The  
markable reception to Evelyn Laye, prima  
donna, recently, presages a troupe  
for the undiscovered Yankee opera  
stars. Two showings of unusual promise in the  
likely prospect on the musical horizon,  
amazing come-back of Fritz Schenck at the  
of fifty emphasized the distinct appeal of  
sisterhood.

Any number of prima donnas appear to  
play remarkable voices, but lack that over-  
eyed pliancy and grace the roles demand.  
Others who provided a feast for the  
lacked vocal requirements. There are  
to be six sure-fire operettas awaiting a  
talent.

One of the great obstacles for produc-  
ing exploding prima donnas is their appeal  
rich and marriageable gentlemen. The  
Victor Herbert, who composed so many  
clashes for them, once said: "Everybody, in-  
cluding the property man, immediately falls  
in love with a prima donna."

No type of stage star inspires so much  
mentality. Moon-struck gallants will  
front rows night after night and dis-  
stage doors to see such an idol. The  
utterly gaga, penning mushy notes and  
ning up extravagant florid bills.

Thus has matrimony so frequently  
ruined careers of beautiful divas en-  
crest of the way. "No marriage" com-  
have been employed, but if they are  
there is little the producer can do save  
about for another star.

The need for the perfect prima donna  
voiced by the most astute of the prod-  
who recently said: "If I can find in Am-  
a girl with voice, beauty and charm for  
leading role in an operetta, I will gladly  
to pay her \$7,000 a week for two years."

Fashionable dressmakers admit the  
style whalebone corset is back in vogue.  
With long skirts, Paris announced the re-  
among fashionable dressers some time  
Coupled with all this

# Veteran Song Composer to Make Radio Debut in Novelty Program at WEA

Von Tilzer, "Dean of Pan Alley," Featured Tuesday Night

HARRY VON TILZER, dean of the Pan Alley, whose songs have been the country humbug since 1882, will make his radio debut in a novelty program at 8:30 o'clock Tuesday night on the WEA network. For the first time, the orchestra, conducted by Von Tilzer, will do a program composed of a number of Von Tilzer songs. Not all his hits will be played, however, as he has written songs that sold hundreds of thousands of copies, 50 of them selling more than a million.

The program will consist of a medley of ballads, a medley of comic songs, a medley of novelty songs, two songs by Von Tilzer, and a medley of songs, two numbers of which were written by Von Tilzer and a solo by Jack Parker.

Another feature of the program will be examples of some of the most famous songs, or lyrics, of the music. The first of these is "A Bird in a Gilded Cage," which Von Tilzer wrote in less than an hour and which will be heard in the medley of ballads.

BLANCHE SWEET TO BROADCAST  
Blanche Sweet, who plays the part of a club hostess in "The Dean of Pan Alley," later, all-night scene of night life, will appear as Paul Whiteman's guest star when the 10 o'clock hour is broadcast from 9 to 10 o'clock Tuesday night over the Columbia network. Possessed of what might be called a "radio personality," Miss Sweet's remarks and songs are certain to intrigue the great air audience as much as her screen acting does her vast theater audience.

LEW WHITE OFFERS ALL-NEW PROGRAM  
SELECTIONS from the works of O. Elbert Nerva, whose buoyant melodious compositions have won him one of America's most cherished composers, comprising the program which Lew White, organist, will broadcast over the WJZ network at 10 o'clock Tuesday night.

CHAMBER FEATURES ITALIAN CONCERT  
Favorite selections from Italian opera and folk music will be sung by Maria Chantler, lyric tenor and former star of the Metropolitan Opera Company, during the Italian program.

## IN AIR PROGRAMS

Pictured above is Blanche Sweet, screen actress, who will broadcast in the Old Gold Hour at 9 o'clock Tuesday night over the Columbia network. Below is Eddie Cantor, stage star, who has appeared in several pictures during the last five years. He will be heard at 8:30 o'clock Tuesday night over the WJZ network on the Pure Oil program.

Eddie Cantor Engaged for Anniversary for Pure Oil Broadcast

First Walker, tenor, after selections on the program.

DUTCH SONGS PAINT PICTURE OF HOLLAND

A MORNING scene on the Zander, Zea, the famous inland sea of Holland, is portrayed in a delightful song painting by Christian Knieser to be heard during the Slumber Music which Ludwig Laurier and a string ensemble will broadcast over the WJZ network at 11 o'clock Tuesday night.

THRILLING TALE OF FRONTIER TO BE HEARD ON PROGRAM

THE CARBORUNDUM Hour, to be heard over the Columbia network at 7 o'clock Tuesday night, will depart from custom in that a true story of the Niagara frontier will be heard instead of the Indian legend which is regularly told during this program. It is the story of the heroic garrison of 100 French soldiers, all but 12 of whom fell victims to hunger, cold and privation that the flag of France might continue to fly over the ill-fated Fort de Neuville during the terrible winter of 1656.

TUESDAY FEATURES ON BROADCAST

7:00, Columbia network, Carborundum Hour. 8:30, WJZ network, Libby Program: CKGW Toronto, Hockey game: Columbia network, True Romance. 9:00, WEA network, Eveready Hour: Columbia network, Whiteman's orchestra. 10:00, WEA network, R. K. O. vaudeville hour: Columbia network, Concert of Nations. 11:30, Columbia network, Public Radio.

## LOCAL ATTORNEY IS INSTITUTE SPEAKER

Audience of 475 Addressed by H. S. Young in Pleasant Township

There was a capacity attendance of 475 men, women and children at the Pleasant Township Farmers' Institute last night at the school building. H. S. Young, Marion attorney, gave the address of the occasion, talking especially for the benefit of the young people and their life after high school work is finished. Over 200 gratis exhibits are shown.

## LOST 28 POUNDS: KONJOLA AGAIN TO THE RESCUE

Young Lady Glad To Tell What New and Different Medicine Meant To Her

MISS GERTRUDE HUDSON  
"How I wish I had known of Konjola sooner; what days of suffering and anguish I could have been spared." So says Miss Gertrude Hudson, 1306 Summit street, Columbus. "For two years I was badly run down. My weight dropped from 132 to 104 pounds. My digestion was poor, and after every meal came gas and bloating accompanied by severe pain."

"But what wonders Konjola worked. While taking the first bottle I gained five pounds. I took an entire treatment of six bottles, and in six weeks my digestion was restored; I had regained all the weight I lost, and I am enjoying health that I never expected to have again."

Thus Konjola works, quickly and thoroughly. Here is, indeed, a medicine for old and young for all who suffer and who would know again the joy that comes with health. Konjola is sold in Marion at Stump & Sons Pharmacy, and by all the best druggists in all towns throughout this entire section.—Adv.

and 53 different people have arranged home economic displays. Tonight at the institute's final session 500 will be given away to premiums for home economic and grain awards.

The institute this year is attracting the largest crowds in many years. The high school and seventh and eighth grade classes attend the institute during the day and the elementary grades make tours of the building to study the exhibits.

## OHIO MASONIC HEADS INVITED TO MARION

Expected To Attend Chapter's Annual Inspection Here Feb. 25

One of the most important Masonic meetings of the year in Marion is to be held at the local Masonic temple, Feb. 25, according to arrangements announced today by officers of Marion Chapter No. 62, Royal Arch Masons.

Invitations have been sent to all of the Ohio grand lodge officers to be present for the annual inspection of the local chapter on that date. The inspection will be in the most excellent master degree, which is to be conferred in full form in accordance with the new ritual. A cast of 50 members of the Marion chapter will exemplify the degree.

In addition to the grand lodge officers, visiting delegations are expected to be present.

Thousands of people afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know. Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous cathartics do without any of the bad after effects. Olive Tablets bring no gripping pain or any disagreeable effects. Dr. T. M. Edwards discovered the formula after 20 years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound; you will know them by their olive color. Take nightly for a week and note the effect. 10c, 50c, \$1.00.—Adv.

In addition to the grand lodge officers, visiting delegations are expected to be present.

Thousands of people afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know. Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous cathartics do without any of the bad after effects. Olive Tablets bring no gripping pain or any disagreeable effects. Dr. T. M. Edwards discovered the formula after 20 years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound; you will know them by their olive color. Take nightly for a week and note the effect. 10c, 50c, \$1.00.—Adv.

## The EUREKA Special

the Cleaner with the Stronger Suction

No longer need you deny yourself the benefits of electric cleaner sanitation, the convenience a cleaner affords, nor the freedom from cleaning drudgery... Here is a marvelous vacuum cleaner of full size, powerful, rugged, and of attractive color and design and offered to you at a popular price... It is equipped with the powerful EUREKA motor and moves more air at a higher velocity, developing a stronger suction than most cleaners regardless of price... The EUREKA "SPECIAL" is a sturdy cleaner that does its work in a manner that will please you... See it **\$39.50** today!

**A Years Service FREE!**

When we sell you a EUREKA "SPECIAL" we back it up with one year, FREE service, which means that your cleaner is always in tip-top shape, ready for use... Don't wait, buy one now!... A small down payment of \$1.00 delivers it to your home and you pay the balance on easy terms... Phone for a demonstration in your home... Do it now... there's no obligation... we would like to have you try it and see the difference!

ITCHING SKIN BANISHED  
BY ANTISEPTIC ZEMO

Itching, burning skin makes life miserable. Quickly apply Zemo, the cooling, soothing, family remedy. Thousands find that Zemo brings relief from itching, helps to draw out local infection and restores the skin to normal. For 20 years Zemo has been clearing up skin, relieving pimples, rash and other skin irritations. Never be without it. Sold everywhere—30c, 60c and \$1.00—Afr.

For Normal Girlhood

"My daughter Magdalen did not seem to develop as she should. At times she had no pop at all and couldn't get her school work very easily. For four years we doctored her off and on. Then a friend told us how much Lydia E. Pinkham's Vegetable Compound had helped her years ago, so I got a bottle for Magdalen. Her nerves are quieting, her general health is better and she is now as normal as other girls."—Mrs. J. Rembold, Thompson's Addition, The Dalles, Oregon.

## Jubilee's Pardner

A Story of Humorous Boyhood Adventure

By ARLO MORTIMER LEWIS

TODAY was Tuesday, and coolish in the morning but warmish all day, and the frost is coming out of the ground and makes it soupy. I hope it don't freeze again, but I bet it will. I let Jubilee down and pulled up the rope and hid it and put on my bicycle, and went down to empty the ashes and milk the cows, and good old Jubilee was setting in front of the barn door waiting for me to come and open it so he could go in the barn with me. It is certainly good to have him around. I didn't know how much I loved him till he got lost that time Nibs swindled him and sold him for \$50.00 and then the lady that got him to do it gave him another present of \$100.00, and who bought Nibs some underclothes that he

has to wear all the time. I bet he will never do anything like that again. (The bunch was all watching me milk, and the girl had come to go to school with us, and had come out to the barn because the weather was getting warm, and Jubilee came over and stood by me, and I stopped milking long enough to put my arm around him, and Jubilee said to Nibs, "Banty, could you love a dog?" and Banty said, "Why do you ask that, you ain't no dog?" She put one hand to her eyes like she was fainting and staggered back, and Jubilee put the barn bucket back of her and the oil in it, and I bet she was wetter than she was when she was showing me about the fanned trick. You

has to give her a hand to help her get up, and she looked around and Nibs was leaning against the wall grinning, and she thought it was him and she told him to grin whilst the grinning was good, and he told her she was always good for a grin, and he told her she ought to keep out of the barn bucket, because how would she feel if he was a cow and had to drink out of a bucket, someone had not in. And she told him he ought to know how a cow would feel without asking her. Then she was shivering, so the girls went in. She was wrapped in a comforter when I went in to strain the milk, and a lot of things I didn't know the names of were hanging on chair-backs around the store.

That is the second time Maggie has hauled Jubilee the ragged and got away with it by getting me and Nibs to take the blame, but some of those days, Jubilee is going to catch her at it, and I wouldn't like to be her when that happens. She took her clothes when they got dry and went up to my room to change, and I found an old suit of shoes and some plaster she had got out of the attic in my bed in it, and I bet she was wetter than she was when she was showing me about the fanned trick. You

has to give her a hand to help her get up, and she looked around and Nibs was leaning against the wall grinning, and she thought it was him and she told him to grin whilst the grinning was good, and he told her she was always good for a grin, and he told her she ought to keep out of the barn bucket, because how would she feel if he was a cow and had to drink out of a bucket, someone had not in. ## Love's Reawakening

The Story of a Wife's  
Triumph Over Jealousy

BY ADOLPH GARRISON

MRS. TIER'S presence with us on our hunt for Christmas greens entirely changed the route of our expedition. I had expected to go only a short way from home to a woodlot owned by my father where I knew that there was laurel in abundance for the foundations of the Christmas wreaths which we make ourselves each year for every window. I meant to put in the red-bellied and glossy-leaved holly later, when the shipments should arrive from the city market. But Mrs. Tier, who has retained the east end of the island since boyhood, and knows it as she does her own back yard, smiled mysteriously when I told her of my plans and said:

"Why don't you go over Amagansett way and then north? I'd like to show you a place over there."

"I'd love to," I said promptly, for experience has taught me that Mrs. Tier's suggestions are well worth following, and a word to Mary at the wheel sent the car down the wonderful broad boulevard to a fork where a winding narrower road branched off.

"This one," Mrs. Tier said, and from that moment she was in command, directing Mary to turn from one branching road to another, each unwavering than the other, until at last we were in a path just wide enough for the car to pass without being grazed by the branches of the trees.

Mary halted the car and turning looked at Mrs. Tier with eyes in which the lure of adventure had temporarily banished the brooding gloom which she had worn since the day when she had been told that she was a "little girl."

"I'll never be able to get out of here—we'll leave our bones here, unless you remember the way back," she told her neighbor.

Mrs. Tier laughed comfortably. "I could find my way out blindfolded," she said. "I've come here ever since I was a little girl."

"Suppose you meet anyone on this road?" I asked.

"You won't," my neighbor returned, "but if you do, you'll just have to back a little ways, or the other fellow will. Every so often there's a little place at one side or the other where a team or a car can turn out just enough for another to pass. It's a tight squeeze sometimes, but they can manage it."

"When Do We Eat?"

"Then right here's where I make a quick change from a chauffeur to a lady," Mary said. "I wouldn't mind trying it if I were alone in the car, but with the kids and all—I haven't been able to give her a hand to help her get up, and she looked around and Nibs was leaning against the wall grinning, and she thought it was him and she told him to grin whilst the grinning was good, and he told her she was always good for a grin, and he told her she ought to keep out of the barn bucket, because how would she feel if he was a cow and had to drink out of a bucket, someone had not in. And she told him he ought to know how a cow would feel without asking her. Then she was shivering, so the girls went in. You

Mary slipped her hand under my arm, the shakiness at this sort of thing, this ought to be pie after this morning. It's very much like them," I admitted, as we changed seats. But she might as well have kept on driving, for we met no one, and at last by Mrs. Tier's direction turned into a small opening in the trees which could have held perhaps three cars with crowding, and turned off the engine.

"Here's where we walk," one neighbor said, but added encouragingly, "it's only a little way."

"When do we eat?" Junior asked, with a little swagger that sent Mary off into a giggle which was a most welcome sound to me.

"Here's where we walk," one neighbor said, but added encouragingly, "it's only a little way."

"When do we eat?" Junior asked, with a little swagger that sent Mary off into a giggle which was a most welcome sound to me.

## Best Remedy for Cough Is Easily Mixed at Home

You'll never know how quickly a stubborn cough or chest cold can be conquered, until you try this famous recipe. It is used in millions of homes, because it gives more prompt, positive relief than anything else. It's no trouble at all to mix and costs but a trifle. Into a pint bottle pour 1/2 ounce of Pinex; then add plain granulated sugar syrup or strained honey to make a full pint. This saves two-thirds of the money, simply because the correct medicine, and gives you a purer, better remedy. It never spoils, and tastes good—children like it.

You can actually feel its penetrating, soothing action on the inflamed throat membranes. It is also absorbed into the blood, where it acts directly on the bronchial tubes. At the same time it gently loosens the mucus plugs. This threefold action explains why it brings such quick relief even in severe bronchial coughs which follow colds, influenza, etc.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form, and known as one of the greatest healing agents for severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex, it is guaranteed to give prompt relief if money refunded.

## GIVE-IN TO COLD? NEVER!

No one need stay home to conquer a cold, or wait days to be all right. Dr. Pape's Cold Compound will take away that aching feeling and soreness in a hurry! Take some of these harmless little white tablets and break-up your cold before it has a chance to make you miserable.

Pape's Cold Compound is handy to carry, and pleasant to take; every druggist has it for 35c. Why go about with eyes watering and nose running, or a head that's stuffed-up with a cold?
